Hello

By way of background, Tu cows runs a wholesale model and we provide the registrar tag and accreditation through ICANN for our resellers. The registrants register and manage their domain names through our resellers.

Tu cows/OpenSRS has no control or ownership over this domain. We are just the Registrar. We do not host any content or provide bandwidth. Essentially, we are an administrative body. However, I can refer you to our reseller who would be able to disclose the information you are requesting as the domain is being hosted by them. They would have billing, contact information, IP logs and possibly email content. Please see their contact details below
